DIEKE, GUINEA

SCHOOL, HOSPITAL, FAITH COMMUNITY

Formed by English-speaking Liberian refugees, this outpost for justice is now a thriving ministry run by local,

French-speaking Guineans. With creative minds, deep love for community, and one hour of electricity a day, they created a school for all children (Muslim, Christian, or traditional local religions), a clinic with a surgery that trains and employs indigenous staff, and several, rapidly growing churches. Recently, they installed a water well!

XELA, GUATEMALA

STOVES, REFORESTATION, EDUCATION, WOMEN'S EMPOWERMENT

Highland Support Project began in 1993 as a response to political violence creating an indigenous leadership vacuum. HSP's

founding vision is that the role of an "outsider" is supporting local efforts rather than competing, displacing or co-opting local leadership. All HSP initiatives work with Asociación de Mujeres del Altiplano. AMA works in our partner Highland communities to establish local Women's Circles, providing participants with networks of mutual support and a forum for sharing dreams, fears and collaborating on solutions.
